MUSEUMS & ATTRACTIONS

Copenhagen offers a rich variety of classical and contemporary collections, many housed in heritage-listed merchant townhouses, romantic palaces and modern galleries. Created by the great names of contemporary architecture, several of them melt into the surrounding parklands and nestle among the sand dunes by the coast, several near Copenhagen.

Children are also always a part of the picture at Danish museums with hands-on activities that allow children to explore the natural world and tomorrow's cutting-edge technology, not least at the city's science and natural history museums and the new National Aquarium Denmark – Den Blå Planet. Children can also discover their artistic talent at workshops at leading art museums, such as the Louisiana Museum of Modern Art, SMK – National Gallery of Denmark and Thorvaldsens Museum.

No visit to Copenhagen is complete without a day in Tivoli – one of the world's most magical amusement parks with white-knuckle rides, parade bands and family fun. And it's right in the heart of town!
